AANA ERF Poster Session abstracts presented at the 1995 Annual Meeting in Minneapolis, Minnesota

1. Discovering the adolescent's general anesthesia experience (Jay J. Beebe), 405
2. The efficacy of ketorolac in preventing postintubation sore throat in patients with a history of smoking (Daniel A. Benz, Jeffrey A. Katz, Lynne O'Brien, Wanda O. Wilson), 406
3. Pulmonary aspiration in pediatric patients during general anesthesia (Pamela A. Carrillo, Judith L. Lupin, L.M. Borland, S.K. Woelfel, E.W. Saitz, E.K. Motoyama), 407
4. Transesophageal atrial pacing versus atropine for the treatment of intraoperative bradycardia during lithotripsy (Gary D. Clark, Terri G, Monk, Y. Ding), 407
5. Reversed versus nonreversed mivacurium: Incidence of residual postoperative muscle weakness (Jeff Coleman, Michael J. Patregnani), 408
6. A descriptive study of nurse anesthetists' attitudes toward independent practice related to demographic, practice, and educational characteristics (Melanie Dillard), 408
7. Ondansetron versus droperidol: A study of efficacy in the prevention of postoperative nausea and vomiting (Trey E. Early, John G. Charbonneau, Geselle M. McKnight, Patrick M. Jenkins), 409
8. The national distribution of Certified Registered Nurse Anesthetists across the rural-urban continuum (Michael D. Fallacaro, Thomas E. Obst, Manqing Chu), 410
9. Propofol for induction of anesthesia: Comparison of fentanyl and alfentanil on cardiovascular response to laryngoscopy and tracheal intubation (Kathleen M. Feeley, Antonio De La Rosa, Dan Hester, Christoph Stouder), 410
10. Clinical evaluation of the efficacy of fentanyl oralet as an anesthetic premedication in children when dosed to an opioid effect versus total opioid consumption (Janet Goral, Rhonda B. Perno, Brian Ginsberg, Judy Margolis), 411
11. An exploratory study of nurse anesthetists' perceptions of collaboration within the anesthesia care team (H. Beth Grandgenett), 412
12. Evaluating the cost of vecuronium. atracurium, and pancuronium (Carrie E. Hajjar, Ken Betley, Andrea Risk, Kirk Sledzinski), 413
13. The safety and efficacy of granisetron in pediatric surgeries with high incidence of postoperative vomiting (Jenni H. Hartsuff, Keumae Dato, Donna J. Carnahan), 413
14. The effect of flumazenil on postoperative recovery in ambulatory surgical patients (Jennifer A. Hourigan, Karen Zaglaniczny, John Nagelhout), 414
15. Prevalence of latex sensitivity in an ambulatory surgery population (Mary K. Jennett, Susan Vander Laan, Karen Zaglaniczny, John R. Oesterle, Miriam Lebenbom-Mansour, Mary Ann Jarrett), 415
16. Bacterial contamination study of anesthesia circuits (Denise M. Johnson, Margaret M. Moen), 416
17. Music therapy: An adjunct for reducing sedation and cortisol levels in the patient undergoing lower limb arthroscopy under spinal anesthesia (a pilot study) (Kimberly A. Knee, Janet E. Yskes), 416
18. End-tidal nitrogen measured in patients of different body weights (Laura M. Lee), 416
19. Anesthesia providers' adherence to universal precautions and standards of practice at the induction of general anesthesia (Cynthia A. Lynn, Mary Emmert, Sheri Campbell-Harris, Carol Jessmon), 417
20. A retrospective comparison between postoperative gastrointestinal patients who receive either intramuscular injections, PCA pumps, or continuous epidural analgesia and the incidence of paralytic ileus (Karen L. McCarthy), 418
21. The effect of rocuronium on intraocular pressure (Victoria McGeachie, Pamela Norko, Roy Alisoglu, Mary Lou Jones, Surya Thota), 419
22. Influence of Whitacre spinal needle orifice direction on level of sensory blockade (Franklin McShane, Nelson Burgos, Michael Kapp, Christine Wieczorek), 420
23. Manpower survey of anesthesia providers in the state of Michigan (Lu Ann Minore, Richard A. Van Tuyl, Karen Zaglaniczny, Andrea Risk, Jeffrey Sinkovich, H.M. March, David Fugate), 420
24. The effect of obesity on end-tidal carbon dioxide tension during carbon dioxide insufflation for laparoscopy (Deborah A. Mulawa), 421
25. An effective intraoperative anesthetic technique for knee arthroscopy: Local anesthetic with intravenous sedation (Eugene J. Murdock Jr., Jewell B. Duncan), 422
26. Acetylcholine receptor up-regulation in the severely thermal injured patient (John Nagelhout, M. Walczyk, S. Perov, C. Beauchamp, K. Bubenko, M. McMillan), 422
27. Factors affecting early extubation following elective cardiac surgery (Jill Nesley, Todd Nesley), 423

28. A comparison study evaluating the accuracy of three separate hemoglobin and hematocrit measurements (O. Ong, P. Bowers, P. Quinn, Karen Zaglaniczny), 423
29. A comparison between two methods of insulation for patients having abdominal surgery requiring general anesthesia (John F. Pare, Jeffrey Roos, Kathleen Waters), 424
30. Onset and duration of action and tracheal intubating conditions in the burn patient: A comparison of rocuronium versus vecuronium (Margaret M. Radermacher, Cindee Westmoreland), 425
31. A comparison of oxygen saturation measurements obtained from the digit versus the ear (Shannon Hallowell Schemmer), 425
32. A comparison of initial success rates for novice student registered nurse anesthetists in performing oral endotracheal intubation on uncomplicated adult airways with the Miller blade versus the Macintosh blade (Deborah J. Selber, Michael R. Fitzgibbon, Barry A, Vance), 426
33. Topical anesthesia with eutectic mixture of local anesthetics for control of pain during extracorporeal shock wave lithotripsy (Vicki Struebing, Laura Schneider), 426
34. Complications of obstetric lumbar epidural anesthesia performed by Certified Registered Nurse Anesthetists (Kathryn A. Swendner, Christine Zambricki, Frances Jackson), 427
35. Substance abuse in nurse anesthesia—A 30-year retrospective study (Molly K. Whiston), 427
36. Spinal anesthesia for lumbar spine surgery: The Pennsylvania Hospital experience (Arthur Zwerling, Dianne Smith, M. Rocco, R. Kumor, J. Cwik), 428
